

## Schedule

### Wednesday April 13, 2016

Start time	End time	Title	Speaker	Moderator	Session
8:00	8:45	<i>Breakfast/Registration</i>			
8:45	9:00	Welcome / Announcements	<i>Sofia Campbell Scott Singleton</i>		
9:00	9:30	Model-Based Geophysical Interpretation	Bill Abriel (Orinda Geophysical)		
9:30	9:50	Discussion 1			
9:50	10:00	<i>Break 1</i>			
10:00	10:30	From Bright Spots to Dim Spots	Alistair Brown (Consultant)		
10:30	10:50	Discussion 2		Alistair Brown (Consultant)	<b>Where We Started and How Far We've Come</b>
10:50	11:00	<i>Break 2</i>			
11:00	11:30	Advances in Interactive Structural and Stratigraphic Interpretation Over 35 Years	Geoff Dorn (InsightEarth, CGG Software)		
11:30	11:50	Discussion 3			
11:50	12:00	<i>Break 3</i>			
12:00	13:15	<i>Lunch / Challenge Bowl</i>		Peter Duncan (MicroSeismic)	
13:15	13:45	Pitfalls in Horizon Autopicking	Don Herron (Consultant)		
13:45	14:05	Discussion 4			
14:05	14:15	<i>Break 4</i>			
14:15	14:45	Use of Seismic Attributes for Scoping Exploration Evaluations in Frontier Plays	Debra Phillips (BHP)		
14:45	15:05	Discussion 5			
15:05	15:15	<i>Break 5</i>			
15:15	15:45	Subsurface Insight from Seismic Attributes	Greg Partyka (OpenGeoSolutions, Inc)	Lisa Buckner (Hess)	<b>Seismic Interpretation</b>
15:45	16:05	Discussion 6			
16:05	16:15	<i>Break 6</i>			
16:15	16:45	Phase Decomposition as an Interpretation Tool	John Castagna (Lumina)		
16:45	17:05	Discussion 7			
17:05	19:00	<i>Cocktail Reception</i>			

## Schedule

### Thursday April 14, 2016

Start time	End time	Title	Speaker	Moderator	Session
8:00	9:00	<i>Breakfast/Registration</i>			
9:00	9:30	Geologically-sensible Rock Physics: Enabling Interpretation from Seismic Attributes	Mark Kittridge (Hess)		
9:30	9:50	Discussion 1			
9:50	10:00	<i>Break 1</i>			
10:00	10:30	The Impact of Processing on AVO Products	Roger Young (e-Seis)		
10:30	10:50	Discussion 2		Tad Smith (Apache)	<b>Quantitative Interpretation</b>
10:50	11:00	<i>Break 2</i>			
11:00	11:30	The Role of Quantitative Interpretation in Advancing Discoveries	Klaas Koster (Murphy)		
11:30	11:50	Discussion 3			
11:50	12:00	<i>Break 3</i>			
12:00	13:15	<i>Lunch / Roast &amp; Toast</i>		Peter Duncan (MicroSeismic)	
13:15	13:45	Using Precise Source Locations and Source Mechanisms to Interpret the Generation of Microseismic Signals and Their Relationship to the Hydraulic Fracture.	Jim Rutledge (Schlumberger)		
13:45	14:05	Discussion 4			
14:05	14:15	<i>Break 4</i>			
14:15	14:45	Broadband Data: How it has Changed Interpretation	Dave Monk (Apache)		
14:45	15:05	Discussion 5		Sue Pritchett (Ikon)	<b>Leading Edge Uses of Seismic</b>
15:05	15:15	<i>Break 5</i>			
15:15	15:45	Interpretation Challenge - Recognizing Interferences Between Converted P and Direct P Reflections	Bob Hardage (BEG)		
15:45	16:05	Discussion 6			
16:05		<i>Adjourn</i>	Sofia Campbell
